Director

Speaking as One Voice for Crime Victims

July 2010

Dear Victim Service Partners;

The Wyoming Division of Victim Services will be developing an implementation plan for the Violence Against Women Act STOP funds Wyoming receives. The plan will be developed based on input from a broad base of stakeholders who have an interest in improving services to victims of domestic violence, sexual assault, dating violence and stalking.

Once the plan is adopted, it will serve as a guide for Violence Against Women Act funding implementation for three years. Therefore, it will be important to get as much information about serving victims from as many sources as possible.

This year, the Division is using survey monkey as a tool to develop the plan. Through narrative input of the attached survey, we will draft a plan for Wyoming. Once the plan is completed, it will be made available for public comment. We are interested in having the survey completed by July 30, 2010.

Please feel free to distribute this survey to as wide of an array of potential beneficiaries in your community/county as possible. As always, thanks so much for the hard work you do in your community to improve safety for victims of crime.
